

## Why Recycle Plus?

Recycle Plus is a convenient service that allows you to declutter your home and feel good about doing your part for the environment!

## Schedule

Recycle Plus is an every-other-week service. We will inform you what your official pickup day will be.

## Bags

Place items in the corresponding bags. Durable fabric bags are provided for textiles, light bulbs, batteries, and plastic film. Disposable bags will be provided as needed for block foam and clamshells.

## Extras

If you have items that do not fit in the provided bags, we will still accept them! Extras can be placed in bags next to the Recycle Plus box for an additional fee. Set out extras in a 32-gallon bag. There is a maximum of 10 extra bags per pickup.

## Placement & Service

On your service day, place your Recycle Plus box outside, **near your door or a spot that's clearly visible from the road**. The fabric bags will be emptied and returned to your box. Disposable bags with clamshells or block foam will be taken and you will receive another bag.

## Contact Recycle Plus

Contact us at any time with questions, service inquiries, and suggestions.
