

Why RecyclePlus?

RecyclePlus is a convenient service that allows you to declutter your home and feel good about doing your part for the environment!

Schedule

RecyclePlus is an every-other-week service. We will inform you what your official pickup day will be.

Bags

Place items in the corresponding bags. Durable fabric bags are provided for textiles, light bulbs, batteries and plastic film. Disposable bags will be provided as needed for block foam and clamshells.

Extras

If you have items that do not fit in the provided bags, we will still accept them! Place extras in 32-gallon bags next to your RecyclePlus box. You can set out a maximum of 10 extra bags per pickup. Extra block foam costs \$8 per bag, and all other materials cost \$1 per bag.

Placement & Service

On your service day, place your RecyclePlus box outside, near your door or a spot that's clearly visible from the road. The fabric bags will be emptied and returned to your box. Disposable bags with clamshells or block foam will be taken and you will receive another bag.
